

**Low Country Harley Davidson Owners Group
Chapter #4774 Meeting Minutes
May 3rd 2025**

Attendees – 25

The meeting was called to order by Tim Shaw followed by the Pledge of Allegiance.

Director – Tim Shaw –

- **Chapter HOG flag (Banner)**

At the moment there is only one available for the Road Captains. At times, the flag is not always available for the various rides. It was proposed to increase to purchase 2 more flags at the cost of about \$50 each. Kent, motioned that the club should purchase 2 additional flags. During the discussion, various suggestions were made, how to make it available for the Road Captains. One strong suggestion was, since most of the rides start off at Low Country dealership. So, one of the flags should be kept at the reception area, so that a R.C. can pick it up and sign out at the reception booth, afterwards the discussion, majority of the group made a forward motion & second it for the purchase.

- **HOG Web Site**

Eddie from LCHD offered to create a new HOG platform using a site called “**WIX.com**”. As most common hosting website, it has scalable pricing from “Business Elite” \$159 P/M TO “Light” \$17 P/M , with a Free domain for 1 year.

There is a lot of consideration in rebuilding and creating a new platform. Page design, building static and dynamic templates / hyperlinks /content uploads / pictures uploads and ongoing maintenance.

Tim suggests for us (Tim / Ed & Gramps) to together with Eddie to hear him out on his idea & concept

Head Road Captain - David Zimmerman

Reminder!

- For those Road Captains - Just a reminder - This is important. to please **turn in** those **HOG Ride Sheets**.
- Please ask - we have more sheets of “**Route Sheet**” to pass on to riders (Forms are also available @ <https://chshog.org/road-captain-forms/>)

Safety Officer – Jeff Umstead –

- There is an old saying - “*a good soldier never looks behind*” but *not so, for a good HOG Rider.*

You should always look at the back of your bikes. To make sure that your running, signal and break lights are all working. We don't always think of this but this so important to avoid rear collusion.

Same coming to a Stop sign or Red Light. At times, we tent to downshift to slow down. The cars/trucks behind you, doesn't see your lights, they are not always paying full attention, **SHINE** those lights, slightly apply breaks.

- Highway trips. With less & less CB radios, we depend more on the old fashion “hand singles”. Pay attention when switching lanes and passing big trucks.
- Signal /Check your mirrors /Check traffic behind and beside you. Please leave a lot of space between you and trucks and the bike in front of you when pulling back in the lane.

Secretary
Ed H
