But comments were made about this month's heat and riding.

(hydrate / re hydrate / re hydrate)

1. **Take breaks often** – Don't wait until you're drained. —it keeps your reactions sharp.
2. **Stay hydrated** – Sip water regularly, even if you're not thirsty. Dehydration can sneak up on you.
3. **Listen to your body** – If your focus starts drifting, it's time to pull over.
